MOOD PLUS

Physician Designed To Assist With:

- Mood Stability
- Relaxation
- Stress Levels
- Nervousness
- Sleep Disturbances
- Cognitive Performance

Created by our advising physicians, MoodPlus™ features a carefully formulated combination of nutrients that function as neurotransmitters to support the overall nervous system and promote a healthy mood. Magnesium is important for vital cellular functions including cell proliferation and signal transduction. 5-HTP, SAM-e and DMAE are included for their important role in serotonin synthesis. 5-HTP and GABA have shown in research studies to enhance endorphin levels and result in a mood lightening effect as well as calming effect.

WHAT MAKES OUR RELAXATION KIT UNIQUE?

The Relaxation Kit includes two of our top products, Calming Cream and Mood Plus, that work synergistically to promote relaxation, while giving you the energy you need to make it through each day focused, clear and calm.

The purpose of the Relaxation Kit is to help individuals reduce the amount of stress in their life. Calming Cream in combination with the ingredients in our Mood Plus formula promotes relaxation and anti-stress benefits.

Primary Benefits of the Relaxation Kit:
- Promotes relaxation
- Helps enhance and stabilize mood
- Helps decrease stress and improve mood
- Promotes cognitive performance
- Helps maintain healthy levels of both serotonin and dopamine
