About N.A.S. Enhancer™

This formula is a combination of well studied nutritional ingredients that are known to enhance multiple biologic pathways within the cell. This unique combination was chosen to enhance 3 important pathways of intracellular detoxification. The 3 pathways include:

- 1) **Activating the leucine zipper protein**
- 2) **Down regulating the mTor system of the cell and activate autophagy (intracellular cleansing of byproducts)**
- 3) **Providing maximum assistance with antioxidant neutralization within the cell.**

Each of these important activities has been shown to protect cells from oxidative stressors and damage while combating the aging process.*

Directions: Adults, take 2 capsules daily with food. Children, take 1 capsule daily with food or as directed by your healthcare practitioner.
