PEA Soothe  
Support™

*Palmitoylethanolamide For The Brain and Body*

# NEURO BIOLOGIX

## WHAT IS PEA?

**Palmitoylethanolamide (PEA) – backed by more than 300+ medical studies, has been shown to be or assist with:**

- Natural pain reliever
- Anti-inflammatory
- Homeostasis regulator
- Neuroprotective at the cellular level
- Pain and nervous system conditions
- Muscle recovery and muscle pain
- Immune system support

**Palmitoylethanolamide (PEA)** is a bio-identical fatty acid amide that is normally synthesized by healthy tissue in the human body in response to inflammation. PEA is made by various plants and animals and is present throughout the animal kingdom. PEA can be found in many different tissues including glia, neurons, retina, white blood cells, mast cells and adipocytes. Supplementing with PEA has been scientifically shown to naturally assist in the reduction of inflammation and to have neuro-protective and possibly pain control effects. This natural anti-inflammatory supports the nervous system and abnormal immune responses.\*

**Directions:** Adults begin taking 2-3 capsules daily with food or milk for two to three weeks when starting a PEA regimen as an initial loading phase before decreasing to the recommended 1-2 capsules twice daily. Children under the age of 5 consult with your healthcare practitioner.

<b>Supplement Facts</b>		
Serving Size: 1 Capsule		
Servings Per Container: 60		
	Amount Per Serving	%DV
Palmitoylethanolamide	350 mg	†
† % DV (Daily Value) not established.		

**Other Ingredients:** Rice Fiber, Sunflower Lecithin, Vegetable Capsules (Hypromellose).
